

the difference is clear

Vitalograph Spirotrac Over-Read Spirometry QA Service

Locally controlled, expert over-reading of primary care spirometry

Spirotrac[®] Over-Read Spirometry QA Service is a custom solution designed to utilise locally appointed and devolved expert over-reading to ensure that the quality of spirometry performed in general practice and occupational health meets acceptable and agreed standards.

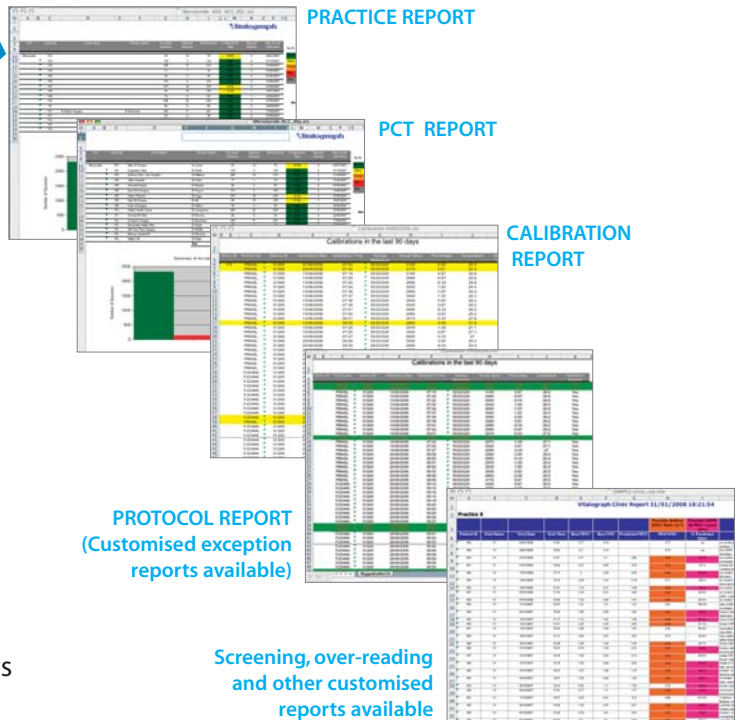

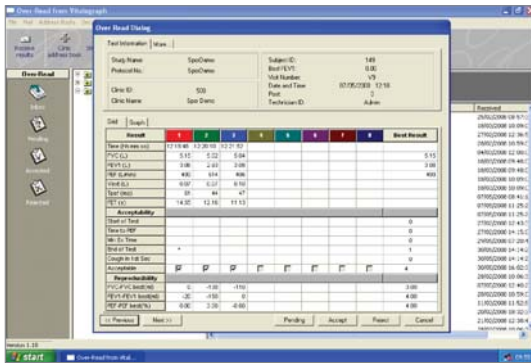

This sophisticated system enables prompt identification of shortfalls in spirometry quality arising from poor test acceptability, deficiencies in device accuracy or calibration, inappropriate use of test protocols or training issues.

- ❖ Spirotrac Over-Read is provided either as a standard service or customised to suit your needs
- ❖ Spirometry testing is conducted as normal with no additional effort required
- ❖ The spirometry session is sent securely to your locally appointed over-reader or to Vitalograph[®] appointed experts
- ❖ Over-reader logs on to perform fast, efficient quality reviews
- ❖ Tests accepted or rejected by the over-reader enabling prompt feedback (by exception) to users

Vitalograph is a world leading provider of outstanding quality respiratory diagnostic devices, clinical trial services and medical equipment servicing. With a pioneering heritage of excellence spanning half a century Vitalograph continues to make valuable contributions to effective medical care and enhanced quality of life.

- A range of customised and automated quality assurance reports may be provided to the practice/site and to the PCT/group
- Areas of excellence or training needs are identified

Spirotrac Over-Read Service provides a wide range of standard and customised reports

Vitalograph provides:

- Spirometry software
- Over-reading service
- Integrated spirometry hardware
- Training and ongoing technical support
- Lifetime service and software updates
- Network solutions
- QA review, data management and custom reports
- Practice Management System connectivity
